

Fire Alarm Technician

Northland Fire Protection – Brainerd, MN

Job Summary:

Responsible for installation and servicing of a wide variety of fire alarm systems and building security systems and equipment. Work will include a variety of project types and working environments. Requirements include above average proficiency in all responsibilities associated with the position. Candidate must have the ability to work effectively both independently and as part of a team. Project lead experience preferred for this position. Must excel in customer service skills and be capable of effective communication with clients, management and fellow employees.

Job Responsibilities:

- Provide excellent customer service and maintain strong professional relationships with our clients, vendors, partners and fellow employees
- Install, wire, device, hook-up, program, commission and service a variety of low voltage systems, including but not limited to; access control, CCTV, intrusion, fire alarm, paging, etc.
- Effectively troubleshoot, diagnose and repair related systems
- Assemble and install a wide variety of equipment racks, cabinets and panels
- Installation of grounding hardware and wiring in equipment rooms
- Identify cable paths and relay site survey information to project managers
- Maintain detailed and accurate installation drawings and documents
- Be personally responsible for the quality of work performed

Qualifications:

- High school graduate (minimum) plus 2 or more years related experience
- Minnesota Power Limited Technician (PLT) License preferred
- Familiar with all NFPA, NEC and OSHA codes and standards
- Strong understanding of fire alarm systems and practical field experience
- Strong written and oral communication skills
- Ability to handle multiple issues simultaneously, with a positive attitude
- Strong organizational and leadership skills relevant to carrying out day-to-day responsibilities
- Must be comfortable working at heights of 3-40 ft
- Must be able to pass drug test in this drug free workplace setting
- Occasional travel may be required
- Must have a clean valid driver's license with dependable transportation

We expect our service technicians to be self-driven, with the ability to schedule and complete the work load provided. Although the position would allow for some flexibility in scheduling customer visits, we expect a 40 hour minimum work week.

This territory would encompass the Brainerd Lakes area and could require up to two hours of travel time to reach some customers.

Compensation/Benefits:

Competitive wage based on experience
Health plan available
Dental plan available
Life insurance plan included
Long term disability included
Simple IRA match plan is available
Company vehicle provided
Company uniform provided
